Re: Request for meeting to discuss good faith offer in response to special notice letter
related to the Omega Chemical Corporation Superfund Site.

Dear Ms. Deschambault and Mr. Berninger:

This letter is written on behalf of McKesson Corporation, Harvey Sorkin, the Estate of Seymour Moslin, and the Estate of Paul Maslin (collectively, "McKesson") to respectfully request an opportunity to meet with EPA and discuss McKesson's good faith offer in response to EPA's September 28, 2012 Special Notice Letter, which requested such an offer.

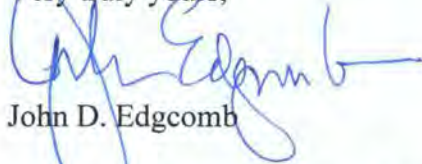

As explained in McKesson's February 4, 2013 letter to EPA, McKesson has been diligently engaged in negotiations with the Omega Chemical Site PRP Organized Group ("OPOG") to prepare a joint good faith offer to provide to EPA to address the selected cleanup approach for operable unit 2 ("OU2") contamination at the Omega Chemical Corporation Superfund Site ("Site"). Unfortunately, settlement negotiations between OPOG and McKesson have stalled at this time.

Ms. Deschambault and Mr. Berninger
United States EPA

Page 2 of 2

McKesson also has been diligently developing an individual good faith offer in response to EPA's Special Notice Letter. Accordingly, McKesson requests a meeting with EPA to discuss McKesson's offer.

Please contact me, as counsel for McKesson, at your earliest convenience to set up a meeting time and place. To help make the meeting productive, McKesson would like to have counsel and technical consultants attend. Please let us know a few different times when you are available, so we can coordinate with McKesson's team.

Very truly yours,

John D. Edgcomb
